9.3 BLADE-RUNNER STEP

PRODUCT INFORMATION SHEET

“Step out in style”

FEATURES	BENEFITS
Full length extrusion	Protects the vehicle's lower body against bitumen, mud and stone chip damage.
Matt - finished anodised finish	Toughens surface and will not tarnish
Integra steps are always body mounted, not chassis mounted.	Becomes an integral part of body to offset flex between body and chassis, also gives maximum ground clearance
Fitting brackets are heavy zinc plated	Protects against rust
Non slip step pads	Ensures sure-footed safety, plus provides protection from scuffing step surface
All models have dedicated fitting brackets and are fully welded and individually designed to suit each vehicle application	Ease of installation
