

Jet-Tec Sliders

By Kingsley Enterprises Pty Ltd

Absolutely Seamless

Increased Ventilation

Visual

The Australian Designed Jet-Tec Sliding Windows are the ultimate way to enhance your vehicles appearance. Visually, the Jet-Tec offers the sleek style and smooth lines found in OEM glass with an optional flyscreens available for every window.

Design

Jet-Tec windows are manufactured out of a single piece of glass with an integrated hole, to allow for the sliding window. This cutting edge method increases strength of the window, visibility, drainage and ventilation. Jet-Tec's have noise dampening incorporated into each and every moving part and feature a High Quality Patented US Made Glazing Seal.

Range

Kingsley Enterprises offer a comprehensive range of Jet-Tec windows to suit your needs. We also custom engineer windows to suit all types of applications for your every need. We have designed windows to suit such applications as: coach windows, bus windows, train windows, horse float windows, trailer windows, campervan windows, tractor windows, agricultural machinery windows, heavy machinery windows, automotive windows, van windows, commercial van windows, truck windows, aviation support vehicle windows, mine machinery vehicle windows, and more.....
