

# 7.5 OPEN SKY ROOFTOP TENT PRODUCT INFORMATION SHEET

“Self-Contained, Quick and Easy to erect”

## FEATURES

- Quick and Easy Tent Erection
  - High Quality 'Rip-Stop' Canvas
  - Integrated Flysheet
  - Aluminium Frame
  - Window awnings
  - Openings
  - Ladder
  - Cover
  - Spring steel stays
  - Ventilation vents
  - Four internal storage pockets
  - Each tent comes equipped with an internal bungee system to facilitate the closing of the tent.
  - Universal Mounting System
- Can be completely set up in 2 minutes and packed up in the same time. See page 2 for example.....
- Waterproof, rot and mould resistant. This material will hold its shape and ensure years of trouble free use
- Creates an insulating cushion of air between the tent and the flysheet, these tents remain a lot cooler in the hot sun - and condensation, especially during those very cold nights, is all but eliminated.
- The insulated base plates of the tents are equipped with a tongue and groove join and stainless steel hinges to provide extra strength and rigidity
- There is one on each side, providing protection from sunlight as well as protection from adverse weather. The awnings can remain open at all times, with adjustable insect netting and separate window flaps located inside the tent, allowing for instant climate control.
- At each end of the tent is a large access opening. This is shaded by the flysheet. Both openings also have complete insect net protection and a zipped canvas flap.
- A telescopic aluminium ladder. This is also used as the lever to open and close the tent.
- The tent is enclosed with a zip operated, heavy duty cover.
- Tensioning the flysheet and window awnings is easy. Simply insert the spring steel stays into grommets located in the base of the tent.
- In the top of the tent are fully insect screened.
- This facilitates the easy mounting of the tent to your roof bars or roof rack and also allows for the tent to be opened to the rear, side or in some cases even to the front of the vehicle.

# 7.5 OPEN SKY ROOFTOP TENT PRODUCT INFORMATION SHEET

“Self-Contained, Quick and Easy to erect”

## APPLICATIONS

The Rooftop Tents quick and easy tent erection make it perfect for campers, travellers and adventurers alike, the rooftop tent will free up your time for all your other activities.
